4G Phones under Rs. 5,000

4G mobile phones have become the rage in the smartphone industry since its advent a few years ago. The advantages of the 4G connection over 3G and 2G are very striking, and people have been on the hunt to buy the best 4G mobile phone there is. 4G phones can transfer data 10 times faster than its predecessor, 3G phones. This facilitates fast download of movies, playing music online and much more. All top brands including Samsung, Nokia, Oppo, Vivo, Apple and the like manufacture mobile phones with 4G compatibility. On Flipkart you can find smartphones that fall under a wide range of 4G mobile prices. Stay hooked. Stay amazed. The Realme 5 and Realme 5 Pro smartphones are here to empower you with tech. Possessing impressive features, these smartphones are here to redefine the way you use your phone. You can explore their features, specifications and price online. Let's explore what these smartphones have to offer: Groundbreaking AI Quad Camera The Realme 5 and Realme 5 Pro let you take photography to the next level by giving you the power of four cameras in one. With a 12 MP Primary Lens, the Realme 5 lets you click stunning and clear pictures, even in a dimly lit cafe or pub. The Realme 5 Pro's 48 MP Sony IMX586 Primary Lens keeps your pictures highly detailed and sharp such that they remain clear even when you zoom into them. Equipped with 119-degree Ultra Wide-angle Lens and Super Macro Lens, these Realme phones will let you capture more of breathtaking sceneries and minute details in one frame. Remarkable Performance Lag? What lag? Yes, the Realme 5 and Realme 5 Pro will have you asking those questions with their highly efficient and robust processors. The Realme 5 features a 2.0 GHz Qualcomm Snapdragon 665 AIE processor and the Realme 5 Pro boasts a 10nm octa-core Qualcomm Snapdragon 712 AIE processor to let you do more of what you love - without experiencing any lag. You can now play games, surf the Internet, check your social media accounts, reply to emails and do much more with these phones. Mini-drop Display Watch everything on the Realme 5's 16.51 cm (6.5) HD+ Mini-drop display and the Realme 5 Pro's 16 cm (6.3) FHD+ Mini-drop display come to life. These phones offer an immersive visual experience that will have you glued to the screen. Kiss Goodbye to Low Battery These phones are built for people on the move. While the Realme 5 features a massive 5000-mAh battery, the Realme 5 Pro houses a 4035-mAh battery to ensure that you never run out of charge. The Realme 5 Pro's VOOC Flash Charge 3.0 feature juices up the phone in no time so that you can head out without the fear of low battery. You can get your hands on these iconic smartphones by buying them online on popular shopping sites. Realme 3i - A Smartphone That Is Truly the Complete Package The Realme 3i is bound to please you, regardless of whether you're a person who is all about the aesthetics of a smartphone, or whether you're a gamer in the pursuit of a phone that will not hold you back from bringing your A-game in the virtual battlefield. Smartphones Reimagined - The Specifications and Features of the Realme 3i This smartphone boasts a diamond-cut texture and laser engraving which give it a distinct look. Designed to please you at every angle, the Realme 3i comes with a 88.3% screen-to-body ratio and an indulgent 15.74 cm (6.2) display. This display is protected with Corning Gorilla Glass 3 so your handheld device is safeguarded from the pressures of everyday use. Stay ahead of competitors in online games. You can trust the Realme 3i and its octa-core GPU and high-performance CPU to facilitate smooth gameplay, so you can experience the full thrill of your online gaming exploits. This phone is also equipped with a 12 nm process technology which ensures an efficient performance without any power wastage. In terms of camera, the Realme 3i comes with a 13 MP high-definition pixel front camera. This camera is equipped with a 5 P high-concentration lens which identifies and captures the most intricate features of your face so you get detailed pictures. You're also in for a treat with the Realme 3i's 13 MP + 2 MP dual-rear camera system. It comes with features, such as the Chroma Boost and AI Engine, which recognize the different scenes you are taking photos in and inject these images with the best-suited colours. Buy Realme 3i Online Enjoy the luxury of familiarizing yourself with the features of this phone, or the price of Realme 3i at your leisure, from the convenience of wherever you are. Online shopping portals also entice customers with offers and discounts on Realme 3i or even the Realme X - you don't want to miss out on these deals! Buy the Redmi Note 7 Online Smartphones have become a necessity to a luxury for almost everyone. Whether you're a teen or an adult, everyone wants a smartphone that not only performs well but also looks stylish. Well, here is one smartphone that stands tall in both aspects. The Redmi Note 7, with its 16-cm (6.3) FHD+ Dot Notch Display and an elegant reflective glass back, is a sign of luxury and sophistication. But don't let its good looks fool you. This smartphone is a powerhouse when it comes to speed and performance. Looks aside, specifications & features are the vital factors when it comes to choosing a smartphone. So, let's take a look at what features the Redmi Note 7 offers, shall we? Capture Your Special Moments Anytime and Anywhere It is not practical to carry around your DSLR camera everywhere. When it comes to capturing those impromptu moments that hold special meaning to us, smartphones are the ones who save the day. Speaking about capturing special moments, the Redmi Note 7 features a (12 MP + 2 MP) dual-rear camera setup and a 13 MP front camera which let you click impressive photos effortlessly. Apart from featuring high-quality sensors, this phone also comes with various features such as AI Beauty 4.0 and the AI Portrait mode which further help in improving the quality of your pictures. Face Unlock Entering complex passwords and complicated patterns to unlock your phone have become a thing of the past now. With the Redmi Note 7, all you have to do to unlock your phone is look at it. The Face Unlock feature automatically recognizes your face and unlocks the phone. Does it get any simpler than that? Shop Online for the Redmi Note 7 A powerful processor, brilliant cameras, and a beautiful display. What more could you ask of a smartphone? But, the Redmi Note 7 doesn't just stop there. With high-end specifications & features, the Redmi Note 7 is truly designed to impress. So, what are you waiting for? Log on to your favourite shopping website, check the price of the smartphone you wish you buy, read its specifications and features and you're good to go. Redmi Note 7 Pro Up your photography game with the exciting Redmi Note 7 Pro that comes with a 48 MP + 5 MP AI camera on the back equipped with Sony's IMX586 camera sensor. The sensor comes with 4 times the pixel count of a traditional 12 MP camera resulting in a resolution that is as lifelike as it gets. Watch all your favourite games in stimulating environments that are as good as real. Sceneryscape helps an image retain its sharpness even when it is magnified. The camera combines 4 pixels into a single rich 1.0µm Super Pixel photograph, enabling you to take beautiful photographs even at night, which is touted to be the phone's most enviable USP. Top performance The Note 7 Pro is powered by the Qualcomm® Snapdragon™ 675 processor that delivers 155% performance of the Note 6 Pro. The back of the phone features a beautiful shining glass with a gradient finish that changes hues against different lights. Trust the phone to rather glow in your palms! Corning Gorilla Glass and reinforced corners protect the smartphone from accidental drops. The Note 7 Pro boasts of a 16cm (6.3) Dot Notch Display enabling you to enjoy content on an unobstructed screen. The phone comes with a resolution of FHD+ 2340 x 1080. Impressive Battery On a full charge, the Redmi Note 7 Pro will give you 38 hours of music playback, 11 hours of video playback, 8.5 hours of gaming sessions and 48.5 hours of call time. Trust the phone to have your back when you need it the most. With the Qualcomm Quick Charge 4, power up the Note 7 Pro in shockingly low time. Oppo K1: technology at your fingertips The Oppo K1 boasts of a delightful 25 MP Beauty Front Camera that can capture 296 feature points of your face. The AI-powered Beauty Algorithm studies your face in just a few milliseconds to add personalised touchups based on 8 million beauty solutions present in its library. Your face looks luminescent and sharper. On the rear of the phone is a 16 MP + 2 MP dual camera that can recognize 16 scenarios and 120 scene combinations to fine-tune colours, making your photographs incredibly vivid. AI Portrait Mode will keep the subject of your pictures always in focus by optimising the background. See stunning and natural depth-of-field effects in all your photos. Find the K1 in two colours: astral blue and piano black. The Oppo K1 is available on Flipkart at 16,990 Rupees only. Is your phone's battery giving up at the most inopportune moments? Is its display not vibrant enough? Do you long for a faster and smoother mobile experience? If yes, then your quest ends here. Asus brings to you the Zenfone Max Pro M2 - a smartphone that's built to impress. Boasting powerful features, such as Qualcomm Snapdragon 660 octa-core processor (with AIE), a 5-magnet NXP speaker and an FHD+ Full View display, the Asus Zenfone Max Pro M2 is set to take your smartphone experience to the next level. Beauty Meets Performance in the Asus Zenfone Max Pro M2 The touchscreen of this Asus smartphone comes with Corning Gorilla Glass 6 protection, making it quite robust and durable. To top it off, the 3D glass-like rear panel features a wave design, adding to its premium appeal. Although the Notch panel on the 15.9 cm (6.26) FHD+ Full View display takes up minimum space, it still houses a host of sensors and other features, such as the LED Proximity Sensor, Ambient Light Sensor, Soft LED Flash, and the front camera to make the most of the space it has got. But it's not just these features that make the Max Pro M2 stand out from the rest. This phone also boasts a 5000 mAh battery, up to 6 GB of RAM and up to 64 GB of ROM for a seamless smartphone experience. Cameras That Inspire Awe Going on a vacation and don't want to lug your bulky camera around? Now, it's ok to leave your DSLR behind in your hotel room, as this smartphone boasts a dual rear camera system (12 MP + 5 MP) and a 13 MP front camera. The primary camera on the rear takes advantage of a Sony IMX486 sensor, an F1.8 aperture, 6P Lens and 1.25 µm (micrometer) pixel size to help you take stunning photos and stable 4K UHD videos in almost any lighting condition. So, what are you waiting for? Log on to your favourite shopping site and buy an Asus Zenfone Max Pro M2 online, and that too at an amazing price. Click away! The Revolutionary Samsung Galaxy A7 Smartphone Turn every moment you want to capture into a masterpiece with the Samsung Galaxy A7 smartphone. And, it is not just its revolutionary camera that got us swooned. It is everything about this phone that awe-inspiring. The most grab content on its 15.36 cm (6) True FHD+ Super AMOLED Infinity Display seems gripping. See it to believe it - get your hands on this sensation from Samsung. You can explore the features, specifications, along with its price, online. Buy before you buy the Samsung Galaxy A7 smartphone, we have curated a list of things that delighted us. Let's explore: Elegant Yet Power-packed Don't let its 7.5 mm sleek profile encased in a glass body fool you. It can handle high processing tasks at high speeds, without any stutter. And, we have the Samsung Exynos 2.2 GHz Octa-core Processor to thank for this seamless performance. You can even open multiple apps and swap between them smoothly. Keep your messages, photos, videos and other files private on this phone. It comes with an ergonomically designed fingerprint sensor that lets you unlock your phone with just your touch. The Iconic Triple Camera The Samsung Galaxy A7 phone features a 24 MP low-light camera, 8 MP ultra-wide camera and 5 MP camera with live focus. You can truly explore the subtle art of photography with this phone by clicking anything and everything coming your way. Capture what you see - we mean quite literally - as the ultra-wide angle view (120-degree FOV) of this phone replicates how the human eyes look at the world. Dark pictures are a thing of the past - say hello to vibrant and vivid pictures, even when the lighting is dim or low, as this phone features the Galaxy A7 Super Pixel camera. Pout a little more for your selfies as the 24 MP front camera, with an adjustable LED flash, lets you capture gorgeous selfies. Moto One Power - An Improved Version of Your Favourite Android Phone Motorola in collaboration with Google brings you yet another Android phone, the Moto One Power. This smartphone remains true to the brand's DNA in terms of the minimalist design of its body. However, the Moto One Power puts itself ahead of the others with its set of unique specifications. One of the most glaring of its 'special traits' being its expansive 15.75 cm (6.2) display. Proving itself as a mobile which is at the top of its game, the Moto One Power packs the Smart SIM feature which automatically selects the best SIM based on your call history and your contact's carrier. This feature helps you stay connected with the best data technology available at the moment. Redmi Note 5 Pro The Redmi Note 5 Pro is equipped with a 1.8 GHz octa-core Snapdragon 636 processor and the Adreno 509 GPU making the phone as smooth and seamless as a smartphone can get. It comes with a large 15.2-cm (5.99) FHD+ display and an 18:9 aspect ratio that will bring you closer to all the action. The Redmi Note 5 Pro sports a 2.5D curved Corning Gorilla Glass ensuring it lasts for a long, long time. The phone is fuelled by a whopping 4000 mAh battery. Redmi Note 5 The Redmi Note 5 boasts of a stunning 15.2-cm (5.99) FHD+ display that is out to stun you with incredibly vivid visuals. The phone comes with a long-lasting 4000 mAh battery that offers up to 15 hours of video time and an impressive 165 hours of audio playback. The Redmi Note 5 is powered by a 2 GHz octa-core Snapdragon 625 processor. It packs a 12 MP rear camera and a 5 MP front camera that boasts of an LED Selfie Light and face enhancement features. Redmi 5A The Redmi 5A comes with a beautiful 12.7 cm fully laminated display. The phone is run by a Qualcomm Snapdragon 425 (quad-core) processor along with 3 GB of RAM and 32 GB ROM that is great for swift multitasking and intensive gaming. It boasts of a 13 MP camera with Phase Detection Auto Focus helping you capture photos that are as sharp as they can get. Fueling the Redmi 5 A is a powerful 3000 mAh Li-polymer Battery. Redmi Note 4 The Redmi Note 4 features a 13.97 cm Full HD Display with a stunning resolution of 1920 x 1080p ensuring rich and detailed visuals on your screen. The phone comes with an impressive 4100 mAh Li-Polymer Battery that can last you an entire day on a single charge. The Redmi Note 4 is operated by Qualcomm Snapdragon 625 64-bit Octa Core 2GHz Processor, ably supported by 4 GB RAM and 64 GB ROM, offering a smartphone experience that is as swift and intuitive as it can get. iPhone Xs Max - Innovation at Every Step Meet the iPhone Xs Max, a cocktail of high-end specifications, a gorgeous and durable body, and a multitude of useful features. Whenever Apple introduces a new smartphone, there is something about the phone which would redefine the technology of its age. In this case, Apple doesn't disappoint us. Powered by the intelligent A12 Bionic chip, the iPhone Xs Max comes with a massive 16.51-cm (6.5) OLED Super Retina HD Display, providing you with a completely immersive viewing experience. Also, the images on this phone look bigger and brighter with accurate colour. Whether it's taking pictures, playing games, or watching videos, Apple's smartphones truly provide a fluid and engaging experience. The intelligence and processing power of Apple's powerful A12 Bionic chip completely transforms the way you experience photos, gaming, and even augmented reality. But a smartphone is not just about the specifications and looks, is it now? Let's take a look at some of the features that the iPhone Xs Max offers: Breathtaking Cameras A 12 MP + 12 MP dual-rear camera system and a 7 MP front camera combined with features such as Smart HDR Technology, Enhanced Bokeh Effect, and All-new Depth Control allow you to click pictures with vivid colours and enhanced detail even in low-lighting conditions. Advanced Face ID Why go through the trouble of entering complex passwords and patterns when you can unlock your phone with just a look. The iPhone Xs Max's Face ID uses advanced machine learning and an adaptive recognition to recognise your face in an instant using an infrared camera. Dust- and Water-resistant The phone comes with an IP68 rating which makes it resistant to dust and water. Now clicking pictures near a pool or a beach can be done without any worry. With such impressive features, a beautiful Super Retina HD Display, and the powerful A12 Bionic chip, there should be no hesitation in buying the iPhone Xs Max. Browse online and compare the prices of the iPhone Xs Max on different websites to take your smartphone experience to the next level. You can find 4G smartphones under various price ranges: 4G mobiles under Rs 5,000 like Panasonic P77, Micromax Canvas 5 Lite, etc., those under Rs 3,000 like Swipe Neo Power, Karbonn A40 Indian, and 4G mobiles under Rs 10,000 like Samsung Galaxy On 5, Redmi 5A, etc., all falling in the low price range. If you are looking for mid-range phones then you can find 4G mobiles under Rs 20,000 like iPhone SE, Oppo F3 Plus, Gionee A1, etc. If you are looking to purchase some of the high-end phone with this connectivity then you again have many options including the ones with cutting-edge technology whose price goes as high as Rs 1,00,000. LTE stands for Long Term Evolution. It is short for a technical process that allows for fast data transfer with 4G connectivity, i.e., upto 10 times of that of 3G connectivity. Together it is called 4G LTE. Whereas, when you have 4G VoLTE (Voice over Long Term Evolution) connectivity in your mobile phone, it specifically functions to improve voice and video calling in your phone. A large number of mobile phones from various brands were launched in 2017. Most of them are 4G compatible. Among these, we have curated a list of a few smartphones that became instantly popular and are selling very fast even today. 1. Oppo F5 Oppo F5 was launched in November, 2017 as a 4G smartphone that focuses primarily on the selfie camera. The highlight of this Oppo mobile is that it houses a 20 MP camera and has a Face Recognition feature that helps the user to unlock the phone by simply holding it against his/her face. It also has an artificial intelligence beauty recognition technology. The design of the device is also much lauded with it having an aspect ratio of 18:9. The Oppo F5 price is quite reasonable for the features it offers and it has garnered very good reviews from its users. 2. Nokia 5 Nokia 5 is one of the brand's Android-based phones that they launched in 2017. It is 4G compatible, has great features and is priced only below Rs 13,000. The phone has been lauded for its aesthetics as it has a very premium finish and an all-metal body. It has a 5.2 inch sized screen with an aspect ratio of 16:9. Nokia has promoted this phone as one that strikes a perfect balance between work and play. 3. Redmi Note 4 Redmi Note 4 was one of the earliest launches of 2017. It turned out to be one of the most popular phones from Xiaomi. The combination of low price and great user-experience makes the 4G compatible Redmi Note 4 one of the top picks of 2017. It has a major design upgrade and is much easier to handle than its predecessor. 4. Samsung Galaxy S8 Samsung S8 flagship mobile phone and is one of the high-end smartphones from this brand. The display is the biggest highlight of this model. It's 'Infinity Display Feature' created a revolution in the screen viewing experience as the smartphone screen spills end-to-end with the content overflowing from the screen. It is a bezel-less phone with a large screen of 5.8 inches. 5. HTC Ultra HTC U Ultra was launched in January, 2017. It is a high-end phone from HTC with a 5.7 inch quad HD display screen. It garnered great user reviews owing to its striking features like the Android 7.0 OS with HTC Sense, brilliant camera specifications like a 16 MP front camera and 12 MP rear camera and more.
